

**SHE STOLE THE PROOF.
HE WAS SENT TO BRING BACK HER BODY.**

In a world that sells the air, a rogue hacker takes the Lazarus Key and runs. The Consortium sends Commander Vram Tyage, a winged soldier burning from the inside out. One accidental touch silences the agony in his skull.

Now the hunter and the thief have to survive the legion, the cold, and each other.

Partners, or nothing.

Book One of The Arkun Cycle
